

MP-2BM BF Q-SERVO

Box Motion 4-Axis Servo Motor Type Packing Machine
(Featuring Smart Belt Design)

FEATURES:

Machine Design:

- Box-motion End-seal Design: Featuring easy maintenance and hermetic sealing.
- Handy Belt Design: Easily removable belt without any help of tools, ideal for everyday cleaning.
- Heavy Duty Design: Cantilever build / Heavy steel mainframe and SUS304 made housing, with integrated electrical cabinet, perfect for multi-shift operation.
- Belt Feeding Design: Easier for users to manually load products.
- Sanitary Standard: SUS304 machine housing designed to meet highly regulated food grade standard.
- Safety Guard Design: Fully safety-guarded to protect operators from accidental jamming or cutting.

Packing Style :

- Pillow pack with or without gusset fold
- On request with print coding, carton insert, label or coupon, tear strip, tear notches and other easy opening features.

Packing Material:

- Printed film or transparent film
- Heat sealable mono layer film
- Laminated film or metalized Alu film

Smart Operation:

- HMI Touch Screen: Easier for the user to operate the machine without problems.
- 100 Recipes: Able to save up-to 100 product recipes for any complicated production.
- Easy Setup: Users can easily do the fine tuning from touch screen and save the setting into HMI.
- Smart Belt Design: Easily for the user to do manual product loading and belt cleaning.
- M.I.S. Function (Misplaced Item Skip): Efficiently to reduce waste and avoid incorrect cutting.
- No Product No Pack Function: Possible to connect the machine with any production line and realize the dream of automation by the smallest budget.

SPECIFICATIONS:

Packing Type:	Pillow type or Center-sealed type
Film Width:	(S):Max:370mm (M):Max:570mm (L):Max:770mm
Product Size:	(S) : Max: 130mm/W , Max: 50mm/H (M) : Max: 230mm/W , Max: 80mm/H (L) : Max: 330mm/W , Max: 110mm/H
Cut-off Length :	100-450mm
Speed & Output :	60~100 packs/min
Power & Air :	3-Phase 220V / 380V / 415V , 50/60Hz
Voltage :	Air pressure required:0.5Mpa
Machine Size :	4035mm/L, 1139mm/W, 1680mm/H
Machine Weight :	Approx. 850Kg
Remarks: *It may be designed & customized individually by KEED if the size of packing content is beyond the above size range *Packing speed varies depending on bag length and manual loading status. *Roller chain pusher version available.	

MAIN APPLICATIONS

Buns & Breads

Boxed cake

Frozen Foods

Trays & Boxes

Main Applications:

Bakery products, like buns, breads and cakes.
Frozen foods, like meat patty, burger, and chicken fillet.
